

I am an avid listener of AIR1 and was very disappointed to find out that this station could be taken away from me. This station lifts my spirits on a daily basis and were it not available my son who is 3 would truly miss singing God's praises. Air1 is a great testimony throughout Fort Smith, and I often encourage people to tune to this station so the thought of it being displaced by an LPFM broadcast is very disheartening. The service provided by Air1 is most definitely in the public interest because it is not only a radio station, but a ministry. If someone is listening that needs help they can call and talk to counselors 24 hours a day, and I support the station financially because I believe in its power. Music is a very powerful thing. Thank you for listening to my comments!
